## Watson Lake Secondary

What a busy fall at Watson Lake Secondary! We have started a new initiative at the school to help expose our students to Kaska phrases and words to everyday activities and routines. We have words posted all over the school to encourage staff and students to use them in all conversations.

We acknowledged National Day of Truth and Reconciliation with sweaters donated by Liard First Nation.

## Khàtinas.àxh School

October came and went in a blink of an eye! Hard to believe we are headed into November. Students complete all sorts of projects, did on the land learning, and completed all kinds of assessments in literacy and numeracy. It was great to see students engaged in their learning.

Students enjoyed hot lunches and healthy snacks all month. Through Jordan's Principle funding, Teslin Tlingit Council, hired a cook for the school. It is great to see kids eating great meals and snacks throughout the day.

The whole school participated in the Halloween Carnival hosted by the 7/8/9 classroom. Classes went to the carnival in their classroom bubbles and had a great time! Each classroom did special Halloween activities in their classroom as well. What a fun day!
